THE CHOICE IS YOURS TO MAKE. The world we live in today offers a wide variety of gods to choose from. These gods range all the way from the god of the moon to the God who created the moon and every imaginable kind of god in between. When it comes down to it, not many people question the existence of some kind of Supreme Being or Higher Authority. Even an atheist prays when the airplane they are on is about to crash. Nature (the heavens and the earth) and even life itself proves that there has to be a Master Designer involved in creation. The question then isn't “Is there a God” so much as “Which God should I choose?” With so many choices available though, how can we ever be sure we are choosing the right one? This book takes a closer look at some of the more prevalent and popular gods of today to see how they stack up against the qualities that a real God should possess. After all, shouldn't the true God have distinguishable characteristics that would set Him apart from all the other false gods? Shouldn’t we be able to know for sure that He is the right God? The author’s goal is to help you or someone you are concerned about make an educated decision when faced with the question of Which God Should I Choose?
