Decision-Making On Mega-Projects: Cost-Benefit Analysis, Planning and Innovation (Transport Economics, Management, and Policy)

'This book offers a refreshing and fascinating look at mega-projects from the perspective of public evaluation and planning. With the changing role of the public sector in planning and implementing large-scale projects and a subsequent strong emergence of private-public modes of operation, mega-projects have become a problematic phenomenon. This volume is a major source of information and reference. It provides the reader with unique insights and caveats in mega-projects planning.'- Peter Nijkamp, Free University, Amsterdam, The Netherlands'Building on the seminal work of Bent Flyvbjerg, this book is a collection of expert contributions that will prove essential to anyone wanting to understand why mega-projects go wrong and how they can be made to work better.'- Professor Sir Peter Hall, University College London, UK
