“Fans of the late Michael Crichton should check out Buzz Bernard's Plague. This bioterrorism thriller is a real page-turner.”-Cheryl Norman, author of Rebuild My World

In only a matter of days, 9/11 and the destruction of the Twin Towers will be rivaled by a lone-wolf terrorist attack on America. Atlanta is targeted as Ground Zero for the most horrifying plague in modern times.

Deep in the secret recesses of a Cold War lab, the Russians created tons of deadly bio-weapons. Now, decades later, a protégé of that Russian research is about to release weaponized Ebola into the heart of the South's most iconic city: Atlanta, where the symbols of American “decadence” range from a happily diverse population to the Coca-Cola museum and Cnn building.

A preliminary test of the horrifying virus demonstrates the unspeakable suffering of its victims-and alerts the Centers for Disease Control that a terrible pandemic is in the making. Cdc Virologist Dr. Dwight Butler begins a frantic effort to track down the source before it's too late.

For new BioDawn Ceo Richard Wainwright, it quickly becomes clear that the “accidental” plane crash that killed the pharmaceutical company's entire executive hierarchy may have some connection to the evolving threat. Suddenly Richard is being stalked by a hit woman. He and Butler join forces to find the lone terrorist at the center of a plan that could unleash a modern Black Plague on the western world.
