Lauret E. Savoy, Eldridge M. Moores, Judith E. Moores

Bedrock: Writers on the Wonders of Geology Lauret E. Savoy, Eldridge M. Moores, Judith E. Moores Novelists, poets, artists, anthropologists, traditional elders, philosophers, and naturalists come together to create a geological portrait of the Earth — from the violence of earthquakes and erupting volcanoes to epochal patterns in stone and the sinuous flow of rivers. With insights from many cultures and across time, *Bedrock* wonderfully illuminates the geology of our home planet.

The book is organized into sections that deal with rock and stone; deep time; earthquakes and faults; volcanoes and eruptions; rivers to the sea; mountains and high¬lands; wind and desert; the flow of ice; and the life of the Earth. Insightful, penetrating, and provocative, the works are written from many positions — traditional and indigenous as well as Western scientific. *Bedrock* bridges specialized science and ordinary existence, providing a fascinating portrait of the forces that have shaped the Earth and giving readers a sense of the geologic experience encompassing their lives.
