Inexperienced brat, Gail, has never been the brightest star in the sky, but when **the man of her house**, Captain John Silver of the United Space Agency, gives her the most incredible opportunity as an incentive for graduating, she buckles down and turns that potential ‘F’ into a ‘D’ and takes her prize as a civilian tagalong with John and four other astronauts on the Myrrha-6 mission to observe a strange comet doing a close fly-by of Earth.

When light from a solar flare passes through the comet’s tail and reflects off some swamp gas, the crew of Myrrha-6 are mysteriously stripped of all inhibitions, and before she knows it Gail is the centre of attention as five **well-endowed** men are no longer able to hold back their desire for her, including the most **forbidden** of all men, John himself.

Gail is **taken** every way a woman can be taken, far harder than most, for her **first time** and although the idea of using protection does cross her mind… she can’t for the life of her think of why she *should* use it or ask them to **pull out**!
