The Solitary Man: Countdown To Prepperdom (Volume 1) Ron Foster
Some folks might call what Donald is trying to create with his little rural house as an effort to become more self-sufficient. Donald can agree with that line of thinking, but the way he sees it, it is going to be own personal uphill battle and race against time to create a safe haven "bugout" location before a NASA predicted solar storm hits. His friends and family think his extra workload is a waste of time and energy. His neighbors' think he is a bit quirky somewhat or eccentric. He is not. He is just another personally driven good ol boy prepper on a mission. He is about to perform a labor of love and preparedness that he hopes might just save him and the little dead end road community he just moved into. He is believing in and heeding NASA`s warnings, as well as his own premonitions of impending societal breakdown. Like all Ron's books, he takes his adventure story and weaves in prepper tricks and introduces some new survival supplies that possibly most folks haven't thought about yet and integrates them into his storyline. This book focuses on building a bug out location from scratch, with permaculture and disaster psychology applied to an unfolding catastrophe. Basicaly how will people act as an apocalyptic event unfolds. This book is dedicated to the new Real Day Prepper show and Mr. Foster has actually accomplished much of what is written in this book as a real life experience in developing a self reliant lifestyle.
