Foraminifera and their Applications

Robert Wynn Jones

Foraminifera and their Applications Robert Wynn Jones
In a one-stop resource, this book provides a state-of-the-art overview of all aspects of pure and applied forams studies. Building from introductory chapters on the history of foraminiferal research, and research methods, the book then takes the reader through biology, ecology, palaeoecology, biostratigraphy and sequence stratigraphy. This is followed by key chapters detailing practical applications of forams in petroleum geology, mineral geology, engineering geology, environmental science and archaeology. All applications are fully supported by numerous case studies selected from around the world, providing a wealth of real-world data. The book also combines lavish illustrations, including over 70 stunning original picture-diagrams of foraminifera, with comprehensive references for further reading. Accessible and practical, this is a vital resource for graduate students, academic micropalaeontologists, and professionals across all disciplines and industry settings which make use of foram studies.

From reader reviews:

Donald Rose:

Book is to be different for each grade. Book for children until adult are different content. As it is known to us that book is very important for all of us. The book Foraminifera and their Applications ended up being making you to know about other know-how and of course you can take more information. It is quite advantages for you. The e-book Foraminifera and their Applications is not only giving you much more new information but also being your friend when you truly feel bored. You can spend your current spend time to read your reserve. Try to make relationship with the book Foraminifera and their Applications. You never truly feel lose out for everything in the event you read some books.

Audrey Thompson:

As people who live in the actual modest era should be up-date about what going on or details even knowledge to make these people keep up with the era which can be always change and move forward. Some of you maybe will update themselves by reading books. It is a good choice for you personally but the problems coming to a person is you don't know what kind you should start with. This Foraminifera and their Applications is our recommendation so you keep up with the world. Why, since this book serves what you want and wish in this era.

Scottie Kelly:

Information is provisions for people to get better life, information these days can get by anyone from everywhere. The information can be a information or any news even restricted. What people must be consider whenever those information which is inside the former life are hard to be find than now is taking seriously which one works to believe or which one the actual resource are convinced. If you find the unstable resource then you obtain it as your main information it will have huge disadvantage for you. All those possibilities will not happen throughout you if you take Foraminifera and their Applications as the daily resource information.

Kelly Livingston:

The reason? Because this Foraminifera and their Applications is an unordinary book that the inside of the book waiting for you to snap that but latter it will zap you with the secret it inside. Reading this book next to it was fantastic author who also write the book in such amazing way makes the content inside easier to understand, entertaining way but still convey the meaning totally. So , it is good for you because of not hesitating having this any more or you going to regret it. This excellent book will give you a lot of advantages than the other book include such as help improving your skill and your critical thinking means. So , still want to hesitate having that book? If I have been you I will go to the book store hurriedly.
