ALERT: Before you purchase, check with your instructor or review your course syllabus to ensure that you select the correct ISBN. Several versions of Pearson's MyLab & Mastering products exist for each title, including customized versions for individual schools, and registrations are not transferable. In addition, you may need a CourseID, provided by your instructor, to register for and use Pearson's MyLab & Mastering products.

Packages

Access codes for Pearson's MyLab & Mastering products may not be included when purchasing or renting from companies other than Pearson; check with the seller before completing your purchase.

Used or rental books

If you rent or purchase a used book with an access code, the access code may have been redeemed previously and you may have to purchase a new access code.

Access codes

Access codes that are purchased from sellers other than Pearson carry a higher risk of being either the wrong ISBN or a previously redeemed code. Check with the seller prior to purchase.

For one-semester college courses in Introductory Astronomy.
This package includes MasteringAstronomy®.

Teaching the Process of Science through Astronomy

Inspired by an activities-based classroom approach, ***The Cosmic Perspective Fundamentals*** is the briefest introduction to astronomy in the Bennett series. By focusing on the process of science and fundamental concepts of astronomy, ***The Cosmic Perspective Fundamentals*** allows time for the use of other instructional tools in the course. Each concisely written chapter is formatted into two main sections followed by a Process of Science section, making learning targeted and expectations clear for students.

The **Second Edition** of ***The Cosmic Perspective Fundamentals*** presents recent dramatic advances in astronomy and how they change our understanding of the cosmos. This new editionfocuses on essential subjects of astronomy chosen for their **importance** to the field, interest, and engagement level, using goal-oriented lessons and practical tools tobring astronomy to life. The textbook is now supported in MasteringAstronomy to create an unrivalled learning suite for students and instructors.

Bring Learning Full Circle with MasteringAstronomy

MasteringAstronomy from Pearson is the leading online homework, tutorial, and assessment system, designed to improve results by engaging students before, during, and after class with powerful content.

Instructors ensure students arrive ready to learn by assigning educationally effective content before class, and encourage critical thinking and retention with in-class resources. Students can further master concepts after class through traditional and adaptive homework assignments that provide hints and answer-specific feedback. The Mastering gradebook records scores for all automatically graded assignments in one place, while diagnostic tools give instructors access to rich data to assess student understanding and misconceptions.
