This acclaimed work--now in an extensively revised second edition--provides an up-to-date conceptual framework and hands-on strategies for culturally competent clinical practice with Latino families and individuals. Practitioners and students gain an understanding of the family dynamics, migration experiences, ecological stressors, and cultural resources that are frequently shared by Latino families, as well as variations among them. Through many in-depth case illustrations, the author shows how to apply a multicultural and social justice lens to assessment and intervention, while drawing on each client's strengths. Creative ideas are presented for addressing frequently encountered clinical issues and challenges at all stages of the family life cycle.
