Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science)
Lawrence L. Kupper, Brian. H Neelon, Sean M. O'Brien

Exercises and Solutions in Statistical Theory helps students and scientists obtain an in-depth understanding of statistical theory by working on and reviewing solutions to interesting and challenging exercises of practical importance. Unlike similar books, this text incorporates many exercises that apply to real-world settings and provides much more thorough solutions.

The exercises and selected detailed solutions cover from basic probability theory through to the theory of statistical inference. Many of the exercises deal with important, real-life scenarios in areas such as medicine, epidemiology, actuarial science, social science, engineering, physics, chemistry, biology, environmental health, and sports. Several exercises illustrate the utility of study design strategies, sampling from finite populations, maximum likelihood, asymptotic theory, latent class analysis, conditional inference, regression analysis, generalized linear models, Bayesian analysis, and other statistical topics. The book also contains references to published books and articles that offer more information about the statistical concepts.

Designed as a supplement for advanced undergraduate and graduate courses, this text is a valuable source of classroom examples, homework problems, and examination questions. It is also useful for scientists interested in enhancing or refreshing their theoretical statistical skills. The book improves readers' comprehension of the principles of statistical theory and helps them see how the principles can be used in practice. By mastering the theoretical statistical strategies necessary to solve the exercises, readers will be prepared to successfully study even higher-level statistical theory.

From reader reviews:

Cynthia Hughes:

Are you kind of hectic person, only have 10 as well as 15 minute in your day time to upgrading your mind ability or thinking skill even analytical thinking? Then you are having problem with the book when compared with can satisfy your small amount of time to read it because this time you only find reserve that need more time to be study. Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) can be your answer because it can be read by you who have those short extra time problems.

Antonia Wagner:

This Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) is fresh way for you who has intense curiosity to look for some information because it relief your hunger of information. Getting deeper you into it getting knowledge more you know or else you who still having tiny amount of digest in reading this Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) can be the light food for you because the information inside this particular book is easy to get by means of anyone. These books develop itself in the form that is certainly reachable by anyone, yep I mean in the e-book type. People who think that in guide form make them feel sleepy even dizzy this publication is the answer. So there is not any in reading a guide especially this one. You can find what you are looking for. It should be here for anyone. So , don't miss that! Just read this e-book kind for your better life in addition to knowledge.

William Rice:

That guide can make you to feel relax. This particular book Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) was bright colored and of course has pictures on there. As we know that book Exercises and Solutions in Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science) has many kinds or variety. Start from kids until youngsters. For example Naruto or Detective Conan you can read and believe you are the character on there. Therefore not at all of book are usually make you bored, any it offers up you feel happy, fun and rest. Try to choose the best book in your case and try to like reading this.

Dianna Chrisman:

What is your hobby? Have you heard which question when you got pupils? We believe that that problem was given by teacher to the students. Many kinds of hobby, Every individual has different hobby. So you know that little person similar to reading or as looking at become their hobby. You need to know that reading is very important along with book as to be the point. Book is important thing to provide you knowledge, except your current teacher or lecturer. You discover good news or update in relation to something by book. Numerous books that can you go onto be your object. One of them is actually Exercises and Solutions in

Statistical Theory (Chapman & Hall/CRC Texts in Statistical Science).
