Henry James: 11 Great Novels Henry James
Henry James (1843 –1916) was an American writer who spent most of his writing career in Britain. He is regarded as one of the key figures of 19th-century literary realism.

James contributed significantly to literary criticism, particularly in his insistence that writers be allowed the greatest possible freedom in presenting their view of the world. James claimed that a text must first and foremost be realistic and contain a representation of life that is recognizable to its readers. Good novels, to James, show life in action and are, most importantly, interesting. His imaginative use of point of view, interior monologue and possibly unreliable narrators in his own novels and tales brought a new depth and interest to narrative fiction.
