The Very Best of the Feynman Lectures Richard P. Feynman
For more than thirty years, Richard P. Feynman's three-volume *Lectures on Physics* has been known worldwide as *the* classic resource for students and professionals alike. That text was based on transcriptions of the hundreds of hours of audio recordings made during Feynman's legendary classroom lectures. Now, for the first time on compact disc, the best of these recordings are available in digitally mastered quality. Ranging from the most basic principles of Newtonian physics through such formidable topics as Einstein's general relativity, superconductivity, and quantum mechanics, Feynman's lectures stand as a monument of clear exposition and deep insight. Timeless and collectible, these unabridged lectures are essential listening, not just for students of physics, but for anyone seeking an introduction to the field from the inimitable Richard Feynman. 6 CDs: Total playing time: Approx. 6 hours

Annie Hiatt:

As a scholar exactly feel bored to help reading. If their teacher requested them to go to the library or make summary for some publication, they are complained. Just minor students that has reading's soul or real their interest. They just do what the educator want, like asked to the library. They go to generally there but nothing reading seriously. Any students feel that looking at is not important, boring along with can't see colorful photographs on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever we really wish for. Likewise word says, ways to reach Chinese's country. Therefore , this The Very Best of the Feynman Lectures can make you experience more interested to read.
